

VINODHINI M

PROFILE

Hi, I'm Vinodhini. I specialize in creating engaging web experiences with HTML, CSS, Python, and JavaScript, covering both front-end design and full-stack development. With a strong background in team leadership and a commitment to staying updated on tech trends, I am eager to connect and explore innovative ideas. Let's discuss technology and collaborate!

PROJECT HISTORY

To Do List

Javascript project

- This application allows users to effortlessly create, delete, and mark tasks as done, making task management a breeze. It helps a professional juggling multiple projects or a student to keep track of assignments and works.

Interior Design Landing Page

FronD-end project

- "Interior" is an Interior Design Landing Page project created using HTML and CSS. The webpage aims to showcase elegant and innovative interior design concepts, providing users with a visually appealing and user-friendly experience.
